

Plz do not force FM translators like KLOVE off the air. It is a wonderful program that benefits the community greatly in it's spirit. It is one of the few stations you can listen to without commercials, and without all the suggestive vulgarity so common on the air today. Replacing it with more trash only serves to undermine the value structure in the community. Most of what is on today you can't even allow children to hear! PLEASE, consider KLOVE and programs like, a moral necessity. Thank you.  
sincerely,  
steve gustafson
